*2020 Impact Report*

# A LETTER FROM THE CEO

Dear Friends,

Throughout the last year, there have been countless times where I have been amazed by the fellowship, support, and perseverance, not only within the walls of The Baby Fold campuses, but also in our community. The Baby Fold has rallied during the COVID-19 Pandemic to ensure the health, safety, and well-being of children and families while simultaneously delivering on its mission to clients. From our children and families to staff and supporters like you, I see an amazing steadfastness that is both inspiring and miraculous! The sense of community and connection continues to be felt in all of our programs and services, thanks to our staff and friends like you!

The Baby Fold is a leader in trauma-informed practices, employing the most effective treatment plans in every aspect of our work. Our life-changing programs range from special education through our Hammitt School and early intervention programs that give children a healthy start in life to adoption support and foster care. We focus on the physical and emotional safety of our families first, build on their strengths, and then guide them with skill and compassion to be their best selves. Our expert staff create a personal plan for each family to address their current situation and lead them to independent success in the future.

As you know, The Baby Fold has a rich history of quality service as well as proven results of helping children and families to become whole and healthy. Our mission to ensure that children and families are safe and well would not be possible without community partnerships and friends like you. The Baby Fold and the communities we serve share a vision – to see every child and family get what they need, learn what they need to succeed, and then give back to the community. With your support, we can continue to connect our children and families to the resources they need to have a bright and hopeful future.

Yours for the children,

# HAMMITT SCHOOL MAKES AN IMPACT IN THE LIVES OF STUDENTS AND FAMILIES.

## TEACHING IMPROVES

Teachers, students, and families in Unit 5 and District 87 are benefiting from the master's level social workers embedded in Fairview and Cedar Ridge Elementary Schools. Teachers report that they are able to spend more time educating all students in their classrooms, and this brings out the best in the teachers and students alike - improvements in academic scores and behavioral health are significant.

## HAMMITT HELPS

Currently, 192 students are receiving the individualized special education that they need in classrooms especially designed and staffed for academic success. Highly trained special education teacher therapists and staff assess each child's strengths and needs and address their academic, behavioral, emotional, and social issues.

Sharing knowledge far and wide! Through our partnership with Illinois State University, we welcomed doctoral students from Srinakharinwirot University in Thailand to observe our special education classrooms. We also enjoyed having professionals from Haiti visit our campus to learn about social services and how our work impacts children, families, and communities.

# GLOBAL PANDEMIC

Before the Governor's order in March, our Family Advocates were busy packing food and supply boxes for our families.

Through local partnerships, our Community Schools program helped secure food to distribute to families at Fairview Elementary prior to the shelter-in-place order. After getting through the initial phase, we've been able to connect families to resources and help school districts plan for mobile distribution and ongoing support!

The Baby Fold successfully navigated our way through the pandemic, keeping children and families as safe and healthy as possible!
